## Programs:

**Mar 09      Printing Methods – by Sig Adler**

**Mar 23      Security Devices – by Leonard Holmsten** (inventions and patents created to discourage forgeries and reuse of stamps.)

**Apr 13      Slide Show – U.S. Confederate Stamps**

**Apr 27      Auction**

**Please note that all programs are subject to change.  
If no Auction is scheduled, there will be a Silent Auction.**

---

Dear Sequoia Stamp Club:

I again I want to thank everyone that has accepted a volunteer position in the club (see Jan. 12, meeting minutes for names and positions). There is a mixture of both veteran and new members that will be assisting in the running of the club. I hope that other members will continue to give input and assistance when needed.

We are currently in the planning stages for the 1999 program schedule. Some items that you can look forward to are: Auctions every other month along with a Silent Auction on the non-auction days, APS slide shows and videos, and Speakers presenting on an

assortment of topics. (See the above program list for exact dates.)

I always like to keep current with philatelic information but there are only so many hours in the day. With a steady group of 25 – 35 members coming to each meeting and everyone reading different literature, the club meeting would be the perfect place to exchange new information. So please bring in philatelic related articles to highlight for us during the “new business” part of the meeting.

Very fondly,  
Kristin Patterson  
President
